Welcome to Think! Energy

Fun and effective energy education made easy.

1

- Send home the *Family Letter*.
- Set a due date and collect any kit opt out slips from your students.

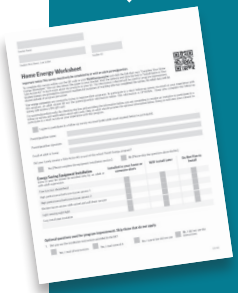

2

- Email your scheduler to confirm kit numbers, especially if anyone returned an opt out slip.

3

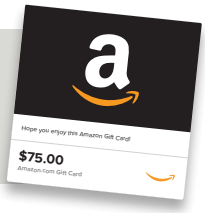

- The day of the presentation, send home kits which include the *Family Activity Guides*. Students complete the guide at home and install the kit items.
- Receive your first $50 Amazon eGift Card for reconciling the kits.

4

- One week after the presentation, send home the *Home Energy Worksheets* (HEWs). Give families about a week to complete them.
- Reward students with color-changing pencils when they complete their HEWs on paper or submit them online (fastest).

Return paper worksheets in the postage paid envelope provided to earn your $75 Amazon eGift Card.

Additional program resources:

- Website with additonal lessons on energy and a State Education Standards Correlation Chart
- *Electricity Serves our Community*, *Natural Gas* and *Electric Generation Posters*
- *Certificates of Achievement*
