PPL Electric Utilities Think! Energy

Bright Ideas

Energy Efficiency Student Poster Contest

PPL Electric Utilities wants to see your students' ideas for saving energy. Would they weatherize their homes with weather-stripping and pipe wrap? Or maybe unplug all the gizmos and gadgets that are not used every day?

Students will show how to save energy and help the environment by entering the Bright Ideas Energy Efficiency Student Poster Contest. They get a chance to win great prizes and have their art showcased on our website.

Prizes

(per grade cluster: K - 2, 3 - 5, 6 - 8)

Grand Prize

- $100 gift card plus a $100 educational award for the teacher
- Pizza or ice cream party for the class (Up to $100 value)

Honorable Mentions

- $25 gift card
- Pizza or ice cream party for the class (up to $100 value)

We are inviting all students in grades K – 8 to submit posters illustrating how they would save energy and help the environment. Students can put their creativity to good use to explore how wise energy use promotes sustainability and a healthier planet.

Poster Specifications:

- All entries must be original work, either hand drawn or computer generated. **Please create your poster on the back of the entry form.**
- Both electronic and paper copy submissions will be accepted. Electronic entry forms, the deadline and other information can be found at *thinkenergy.org/brightideas-poster-contest*.
- Return student entries not submitted online in the postage paid envelope included in your packet received after registration.
