Welcome to fun and effective energy education made easy!

Elk River Municipal Utilities

Check out these implementation steps:

1

- Send home the *Family Letter* from the teacher materials.
- Let the office know energy efficiency home kits are coming.

Day of the presentation

2

- Inform the office an energy educator is expected and confirm where to send them when they arrive.
- Send home a *Take Action Kit* and *Family Guide* with each student.

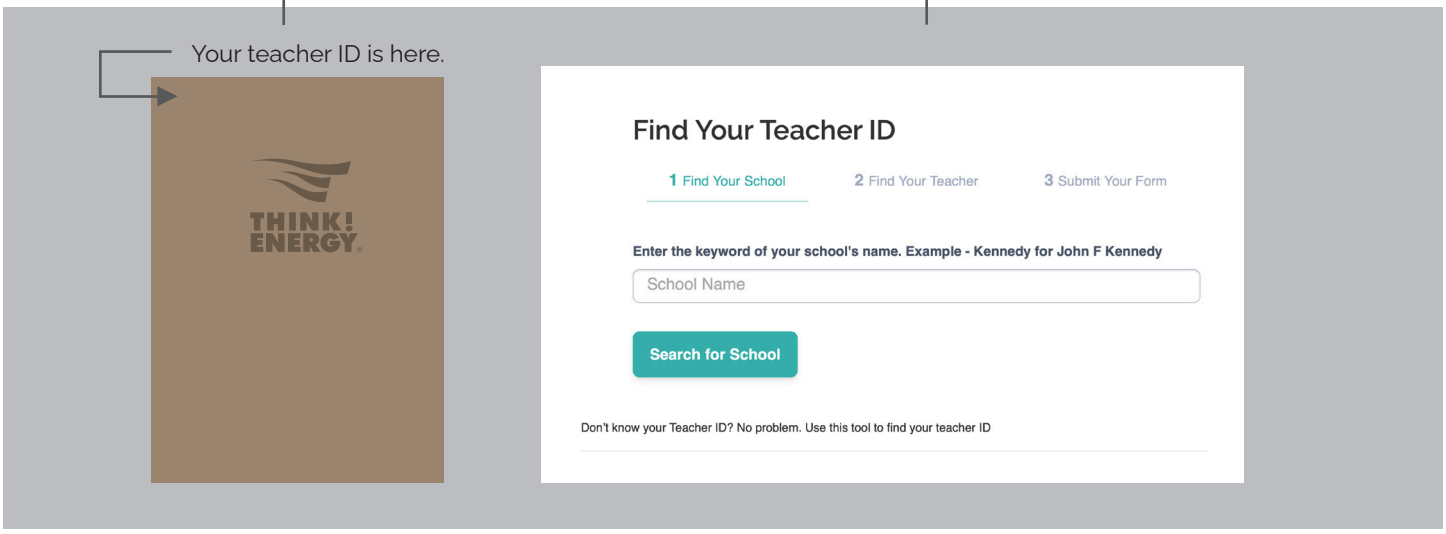

After the presentation

3

- Encourage installation of kit items and set a due date for the *Home Energy Worksheet* (HEW).
- Encourage students to visit *ERMU.thinkenergy.org* and fill out the HEW online.
- Give students a pencil from your tote when they do the HEW.
- Get optional activities and track your award progress with the teacher portal. See your emails for information and links.

You can earn a $50 gift card when students submit 50% of the HEWs and a $75 gift card for 80% or more of the HEWs on paper or at *ERMU.thinkenergy.org*.* Here is how:

Communicate your teacher ID.

Or have students find it online.

At *ERMU.thinkenergy.org*, families can also **play energy games, view product installation videos** and access additional information.
