

Dear Parent/Guardian:

Our class is participating in the Think! Energy program, provided by DTE Energy and Consumers Energy **at NO COST to you**. Your child will learn ways to use energy and water more efficiently, which could save money on your bills. Your involvement and support can add to your child’s understanding. The key aspects of the program are:

Energy education at school

Your child will learn basic energy concepts with materials from the National Energy Foundation (NEF), a nonprofit educational organization, including a *Family Activity Guide* and *Take Action Kit* with high-quality, energy-efficient products for your family. The kit includes LED bulbs, a high efficiency showerhead, faucet aerators, insulation for hot water pipes and more!

Take Action Kit
Visit thinkenergy.org/michigan
to learn more.

Energy efficiency at home

1. Open the *Take Action Kit* as a family. Using the guide, help your child **install your energy-efficient products** to complete the learning cycle started in school and save on your energy bill.
2. Fill out the *Home Energy Worksheet*. Complete it online at thinkenergy.org/michigan or use the paper from the kit. Completing this short survey will help our class earn a grant from DTE and Consumers Energy.

If you cannot use a kit item, please give it to a neighbor, friend or relative who lives nearby. Please include items you gave to others on your *Home Energy Worksheet* if you know they were installed.

Website and support

Visit thinkenergy.org/michigan for an introduction to the program, installation help and to get more information on how to save energy and money. You may also call **855.494.2943** for help.

This program is sure to be a positive experience for your entire family. It allows your child to be a leader in your home and community. In addition, your household may benefit from lower bills. Thank you for participating!

— — — — — **Return this portion only if you do NOT want a Think! Energy Take Action Kit.** — — — — —

We do **NOT** want the free Think! Energy *Take Action Kit* of energy-efficient products.
