

Dear Parent/Guardian:

Our class is participating in the Think! Energy program, provided by DTE and Consumers Energy **at NO COST to you**. Your student will learn ways to use energy and water more efficiently, which could save money on your bills. Your involvement and support can add to your student's understanding of energy use.

### Energy education at school

We will learn basic energy concepts with materials from the National Energy Foundation (NEF), a nonprofit educational organization. You'll receive a *Family Activity Guide* and *Take Action Kit*, which includes products like door weather stripping, LED nightlights and more to help you save energy and money.

If you do not want the kit, please return the completed form at the bottom of the page. We will assume you want a kit unless you return the form.

**Take Action Kit**  
Visit [thinkenergy.org/michigan](http://thinkenergy.org/michigan)  
to learn more.

### Energy efficiency at home

1. Open the *Take Action Kit* as a family. Using the guide, **install your energy-efficient products** to complete the learning cycle started in school.
2. Fill out the *Home Energy Worksheet* (HEW) online at [thinkenergy.org/michigan](http://thinkenergy.org/michigan) or use the paper. Completing this short survey will help our class earn an educational award from DTE and Consumers Energy.

If you cannot use a kit item, please give it to a friend or relative who lives nearby. Please include items you gave to others on your HEW.

### Website and support

Visit [thinkenergy.org/michigan](http://thinkenergy.org/michigan) for an introduction to the program, installation help and more information on how to save energy and money. You may also call **855.494.2943** for help.

This program is sure to be a positive experience for your entire family. It allows your student to be a leader in your home and community. In addition, your household may benefit from lower bills.
